Since the railroad commissioners had their hearing on grade crossings of the electric and steam railroads, the employees are more careful in making the crossings. The signal light is not turned off until the car is entirely over the steam track. This necessitates stopping the car at some of the crossings.

Ill-luck seemed to pursue all our local fishermen Saturday. A railroad man, who went into Saturday afternoon had good luck until he came home. He brought home 35 nice trout, dressed them and laid them away in the cellar for his Sunday dinner, but a neighboring cat got into the cellar and devoured them.

On account of the steady increase of business the Vaughn store has found it necessary to make a new departure to their store room and have finished off the second floor of their store into a large and comfortable department especially for ladies wearing apparel, such as walking skirts, shirt waists and muslin underwear, etc. The department is nicely fitted up and everything done for the comfort of shoppers.

A party of three well known men of this city went fishing on Ward's ice pond Saturday, and although they did not catch many fish they succeeded in capsizing the boat and getting a wetting. When they reached shore they succeeded in buying one trout from a small boy and came home with that. Details of the catastrophe are hard to get, but an interview with the estate's attorney may shed some light on the accident.

URGES A GERMANIC UNION.

Bjornson Proposes Allying Group of Nations to Reduce War Budgets.

Bjornstjerne Bjornson has outlined his idea of the future grouping of nations in an interesting letter to a friend in Paris, which has been communicated to the Chicago Daily News correspondent by the American novelist, Vance Thompson. Bjornson advocates what he calls a "Germanic union" between Germany, England, Austria, the United States, Switzerland, Scandinavia, the Netherlands and Luxemburg. "In such a union," says Bjornson, "the little states would be forced to renounce all idea of foreign policy. This renunciation would enable them to reduce their military organizations and save enormous sums of money. The initial work in such a union would be colonial and also the concluding of treaties with other nations looking to the wholesale reduction of war budgets."

"I am certain of the success of any proposal in the latter direction emanating from such a formidable Germanic consolidation, but from that to a firm alliance between this vast group of peoples and the creation of a permanent supreme tribunal to decide interstate differences the way is long. What to my mind is essential is that the members of national families should seriously face the question of union, the Germanic group being the one that should open the way."

Letter to R. S. Currier, Barre, Vt.

Dear Sir: It is all very well for us to say that it takes fewer gallons of Devco Lead and Zinc to paint a house than it does of mixed paints; but you want to know why.

For the same reason that it takes less good cow's milk to feed a baby than it does of skimmed milk.

Most mixed paints are from fifteen to eighty per cent. adulteration—inevitable, but true. Water isn't paint. Barytes isn't paint. Whiting isn't paint. Benzine isn't paint. Petroleum isn't paint. Fish-oil isn't paint. None of these are a right kind of good paint. None of these do the work that belongs to paint.

All they can do is to fill the can. Devco Lead and Zinc is one hundred per cent. paint. The adulterated mixed paints are only twenty to eighty-five per cent. paint.

Mixed paint ought to be from fifteen to eighty per cent. cheaper than Devco Lead and Zinc—no; the worst of them oughtn't to be anything. They waste your money; you not only must buy more gallons, but you must pay the painter for spreading the extra number of gallons; and painting costs three times as much as the paint.

Yours truly, F. W. Devco & Co., New York.

DRESS GOODS.

Our sales of Dress Goods have nearly doubled in the past year. What is the reason? We are putting out cloths at lower prices than sold in large cities. Customers send away for samples and then find that they can save money by buying of us.

45-INCH BRILLIANTINES compare well with 75c goods. This sale for 50c per yard.

42-INCH BLACK UNDERESSED WORSTED, sponged and shrunk. This sale, 50c.

48-INCH BLACK UNDERESSED WORSTED, sponged and shrunk, a good cloth for tailored skirts and suits. This sale, 75c.

44-INCH CORDED BLACK VOILE for very stylish skirts. We sell it at \$1.00 per yard.

44-INCH MELROSE, in colors of rose, royal, black and white. These are the correct cloths for graduating dresses. We sell them at 87c per yard.

50-INCH BLACK TWINE SUITING, the latest for tailored skirts and suits. \$1.35 would be cheap. We are selling it for \$1.00 per yard.

DRESS SILKS.

We carry Brainerd & Armstrong's Dress Silks. If there are any better we have not seen them. Not many ladies realize the difference between a vegetable and a mineral dyed silk. They will buy one as soon as the other, and then wonder why they do not wear alike and keep their lustre. Think it over.
